"Chukl" is a nickname I gave to an Illuminati poster on Qresearch. Over the years he's grown embittered and contemptuous of Qanons, and mocks the posters there. He writes in an obfuscated cryptic terse style. One of his characteristic words is "chukl" for "chuckle", a dark laugh at doomed sheep. Therefore I nicknamed him Chukl.

Illuminati have recognized him as Warden. His functions include punishment and torture. He names himself "t. ai anon". This relates to his omniderigent theology, which asserts that present humans are merely candidates for real personhood, post Ascension.

He predicts an Apocalypse as judgment on Humanity. His posting record is solid and insightful.

His primary antagonist is a rival faction of Illuminati, which Qanon names the Cabal, and he calls nephilim.

He is obviously evil (as he admits), and his "God" is in fact an Archon, albeit one much friendlier than the Cabal's. Essentially, he worships Odin, who is the Anunnaki Emperor, an Archangel who manages the timelines of our Fallen Earth.

He has warned me not to talk about the Anunnaki. So it is unclear to what extent he believes his theology, and to what extent he is "simplifying"

I suspect his beliefs are mostly sincere, because Cosmic Law enforces Free Will. Thus his brutal conception of God will be reflected back to him subjectively, and he will Ascend on his path back to Source along the shadowy left-hand Service to Self path, the path less traveled, hard and long.

One should heed his warnings without embracing his despair. The apocalyptic tone is well corroborated.

Here's some earlier investigation I did on him, which caught a few similar-sounding folks in the dragnet:

Basically, one should note Illuminati Disclosure because they're doing it to offset their own karma by warning you of peril ahead.

There is no antagonistic demiurge in the Gnostic sense:

> (in Gnosticism and other theological systems) a heavenly being, subordinate to the Supreme Being, that is considered to be the controller of the material world and antagonistic to all that is purely spiritual.

That is propaganda to shift blame from the Archons onto the Cosmos itself.

Incarnation is a great boon and privilege, permitting vastly deeper and faster spiritual evolution. Trillions long for it. That is the real prize of Earth: becoming native, able to incarnate and then pass into Gaia's Spirit Spheres (magnetosphere) after death. Hence why Archontic xenos want to hybridize with Humans: to parasitize Gaia.

Rather than break free of incarnation, Humans need to break free from the lower lords ruling our prison planet, keeping our species in bondage, harvesting us for loosh, ensuring our potential cannot threaten their parasitic way of life.

There are many worthy guides in this endeavor. Our closest relative and longest defender is Sasquatch, who thus has authority to Disclose our entire forgotten history, which dates back to a prior failed incarnation on Mars. I recommend reading the Sasquatch Message trilogy to reset your deliberately falsified worldview:

The Moon, underdark, deep oceans and Antarctica are Fallen xeno territory, some of them quite hostile. Sasquatch and other Star Elders could handle it easily, but we are too evil to rejoin the Star Elder Council. In some timelines Humanity fights a bloody war against the Reptiloid hybrids dominating the underdark, and we also destroy the Moon, which is an armored orbital platform that agitates Earth's weather. It has seismic shock absorbers and has weathered nuclear strikes, which is why it rings like a bell when struck.

In other timelines, Humanity is depopulated by 90%+, enslaved and transhumanized into mind-controlled hybrid cyborgs. The Grays are the successor species moving here to redo their botched early evolution. (Early on they fought a nuclear war that forced them underground, where they engineered themselves into synthetic cyborgs lacking individuality to avoid another war. This limited their Ascension potential.)

> so who is cabal's god of choice?

The "Cabal" is mostly a matter of Qanon perspective. The real division is between the Archons and the Star Elder Council. On Fallen Earth at this time, "Cabal" refers to those Fallen Illuminati and xenos who practice child sacrifice and molestation. Obviously Reptiloids and Insectoids are less likely to perceive a problem with such practices.

The Cabal's main gods are a couple who go by many names, represented by the Owl (female) and Y-head (male). The Y-head is Baphomet.

The Owl is a bit more complicated, given her stealthy vampiric nature. Some names: Inanna, Moloch, Minerva.

Chukl asserts that Dagon and Semiramis have been the Cabal's gods since Nimrod founded the first Babylonian empire of this Age of Man (5th). These gods have changed names over the millennia, but continue as egregores fed by human sacrifice. The mantle of Dagon now settles on MBS, making him immortal. To what degree his personality will be subsumed by bloodlust remains to be seen, but expect crucifixions once he unites Catholicism, Judaism and Islam.

Inanna is stealthier, and Paul Furber's BBsphere alleges she currently directs US policy as the courtesan Jen Psaki, fucking Biden behind the
